For period ending December 31, 2018

General Fund - Revenue Analysis

Normally, the District receives its property taxes in December 55%, April 40%, and June 5%, however, the District has received over 100% of the projected Property Taxes revenue as of this date. This change could be due to many factors, it could be the assessed value has gone up or it could be other factors which the district will research at a later date.

FY2018-2019 Actual Mid-Year FY2018-19 Budget
General Fund - Expenditure Analysis
Salaries and Wages in the first six months are about 61% expended, which is over the projected 50%. This is due to the reclassification of an independent contractor as an employee district, as well as paying off the UAAL at once, rather than on a monthly basis through June 30, 2019. The first 6th month Services and Supplies expenditures is about 45% of the budgeted amount which means the District is on target.

8. These rules and regulations policy and procedures shall cancel previous rules and regulations policy and procedures, if conflict should develop, unless otherwise determined by Board action.

9. Any changes, modifications, or alterations of the Policy and Procedures manual of the Rodeo-Hercules Fire Protection District, pertaining to salaries and benefits can only be made by a majority vote of the Board of Directors of the District. Any new policies or procedures shall be brought before the Board of Directors for approval. The Fire Chief has the authority implement updates and modifications to the policy and procedures not pertaining to salaries and benefits.

B. EQUAL EMPLOYMENT OPPORTUNITY POLICY.

The policy of the Rodeo-Hercules Fire Protection District is to provide equal opportunity in all terms and conditions of employment to all persons without regard to race, color, religion, national origin, sex, sexual orientation, gender identity, ancestry, medical condition (cancer related), age (over 40) protected class, marital status, disability, pregnancy, childbirth or related medical condition.

C. UNLAWFUL HARASSMENT POLICY.

The Rodeo-Hercules Fire Protection District is committed to providing a work environment free of harassment. The District strictly prohibits harassment because of sex, sexual orientation, gender identity, race, color, religion, national origin, ancestry, medical condition (cancer related), age, marital status, disability, pregnancy, childbirth, or related medical condition or any other basis made unlawful by applicable
federal, state or local law. This policy applies to all persons involved in the operations of the District and prohibits unlawful harassment by any District employee including supervisors and co-workers. The law prohibits any form of protected-basis harassment that impairs an employee's working ability or emotional well-being at work. This includes: (1) Verbal Conduct (such as epithets, derogatory comments, slurs, or unwanted sexual advances, invitations, or comments); (2) Visual Conduct (such as derogatory posters, photography, cartoons, drawings, or gestures); (3) Physical Conduct (such as unwanted touching, blocking normal movement, or interfering with work); (4) Threats and Demands to submit to sexual requests in order to keep one's job or avoid some other loss, and offers of job benefits in return for sexual favors; or (5) Retaliation for reporting, or threatening to report, harassment.

Any employee who is subjected to, or observes, an incident of possible discrimination or harassment contrary to this policy is urged to report the incident to management immediately so that complaints can be quickly investigated and fairly resolved. Employees may bring a complaint to their supervisor, Fire Chief/Administrator or any other member of management, without fear of reprisal. If the complaint involves someone in the employee's direct line of command, the employee is free to go to another management official.

If possible, complaints should be in writing and include details of the incident, names of the individuals involved and names of any witnesses. Complaints will generally be referred to the Fire Chief/Administrator, or designee, who will immediately undertake an effective, thorough and objective investigation. A determination regarding the alleged harassment will be made promptly and it will be communicated to the complaining employee.

If the District determines that unlawful harassment has occurred, it will take remedial action commensurate with the severity of the offense. The District will remedy any loss resulting from the harassment, will inform the complaining employee of whatever action is taken against the harasser, will act to deter any future harassment, and will neither retaliate for filing a complaint nor knowingly permit retaliation by management employees or co-workers.

The Department of Fair Employment and Housing also investigates complaints of employment harassment; it can prosecute them before the Fair Employment and Housing Commission, which has authority to order appropriate relief to the employee.

LEGISLATIVE COUNSEL'S DIGEST

SB 1205, Hill. Fire protection services: inspections: compliance reporting.

Existing law requires the chief of any city or county fire department or district providing fire protection services and his or her authorized representatives to inspect every building used as a public or private school within his or her jurisdiction, for the purpose of enforcing specified building standards, not less than once each year, as provided. Existing law requires every city or county fire department or district providing fire protection services that is required to enforce specified building standards to annually inspect certain structures, including hotels, motels, lodging houses, and apartment houses, for compliance with building standards, as provided.

This bill would require every city or county fire department, city and county fire department, or district required to perform the above-described inspections to report annually to its administering authority, as defined, on the department’s or district’s compliance with the above-described inspection requirements, as provided. The bill would require the administering authority to acknowledge receipt of the report in a resolution or a similar formal document. To the extent this bill would expand the responsibility of a local agency, the bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

I am a 3rd generation Rodeo resident. I am a retired federal employee. My last position was a Management Analyst. I was responsible for over 230 local offices providing support of the administration of Social Security for the Western Region. I was the go to person for law and regulation interpretation, review of documents to support claims, and technical instructions.

I previously held the position of Claims Authorizer, responsible for processing all types of Social Security claims for benefits.

Prior to that position, I held various increasingly technical positions. I also provided local technical training needs.

My tenure lasted 38 years at Social Security. I retired to take care of my increasingly sick hubby.

My time with Social Security involved working with local employees and state and federal counterparts aligned with mutual customers (FBI, CA DMV, Federal Protection Service, other regional analysts within Social Security).

I designed and implemented 2 different training programs both during field work and office time. I also designed a program to assist with various terminating events within Social Security. That program is still used today.

I returned home to Rodeo in 2012, to the house my father built and I lived in until I married. I have always felt a part of Rodeo (i.e., left my heart in...) I care about this community as well as Hercules and surrounding cities. (BTW: I lived in Hercules for almost 10 years)

I see my position on the Oversight Committee as a way to help my home town. I want to ensure that the RHFD provides the best, most up-to-date, thorough care to our communities.

I am a Rodeo girl and always will be.

**BUSINESS INTELLIGENCE SPECIALIST**  
2009 - 2012  
*Fireman’s Fund Insurance Companies*  
Novato, CA  
As an integral member of the Enterprise Business Intelligence (EBI) team, business and technical staff, successfully designed, developed and launched an Enterprise BI platform, a strategic Fireman’s Fund project. We utilized DB2 on AIX, DataStage for ETL and Cognos BI for the semantic and presentation layers. Included same tasks listed above.

**FINANCE SPECIALIST**  
2006 - 2009  
*Fireman’s Fund Insurance Companies*  
Novato, CA  
As a member of the Finance Department’s Centralized Analytics team, I provided financial support for all business areas within the Enterprise. This included analysis of top line and bottom line results, expense analysis, strategic decision-support, annual planning data, marketing analysis and ad hoc reporting. I participated in business tactical reviews, monitoring company results and overall operational effectiveness. Also, I successfully transitioned the Claims Dashboard ETL, a large and complex SAS program, from onsite support to offshore maintenance and worked with IT to enhance the Claims Dashboard’s Business Objects presentation layer for end-user reporting.

**DATABASE MARKETING SPECIALIST**  
2001 - 2006  
*Fireman’s Fund Insurance Companies*  
Novato, CA  
As a member of the Marketing Department’s Customer Research & Strategies (CRS) team, I lead the design, development, implementation and enhancement of “CustomerView” (CV), the company’s large customer data warehouse on the DB2/AIX platform. CRS implemented both client and online versions of CV’s presentation layer using Hummingbird BI as the user interface. I provided ongoing user support and training, both business and technical. I developed underwriting and operational reporting, provided data for customer upsell/cross-sell mailing campaigns and agency lead management, and performed ad hoc querying for management.

**SYSTEM ENGINEER**  
1997 - 2001  
*Fireman’s Fund Insurance Companies*  
Novato, CA  
As a member of Fireman’s Fund IT department, I performed analysis and programming tasks for a variety of Enterprise projects. The most important project was Client Loss Reporting (CLR), which used SAS to create reports on data extracted from the company’s large mainframe loss repositories. I also performed analysis and programming for the Incentive Compensation for ABC (ICC) system, which provided incentive compensation checks to agencies for writing small business policies.

EDUCATION COMMISSION
2003 - 2005
Paul Freese “Personal Statement”

My wife and I moved to Hercules in 1997 and since then we have been active and vocal members of this community. We have been involved in activities to help our local students, build the library, improve city services and finances, and advocate for local residents’ taxpayer rights.

I have served the City of Hercules on two commissions: the Education Commission in the early 2000’s and more recently the Finance Commission. I have seen the benefit to Hercules of an independent citizen committee to oversee needed increases in sales tax and utility user tax. Much of Hercules’ financial improvement has been the result of work performed by the Finance Commission, which reviews all the City’s finances and makes recommendations to the City Council. I have also witnessed the abuse of oversight from School Board members and special interests with the WCCUSD Citizens Bond Oversight committee, which is suppose to oversee the huge $1.6 billion bond program.

When the Rodeo Hercules Fire District (RHFD) passed Measure O in 2016, I was for the needed funds to the District, but did not necessarily agree with all the aspects of the measure such as the lack of a sunset and the ongoing yearly board approved increase of up to 3% based in CPI. The RHFD board assured citizens that all the necessary steps would be taken to improve efficiency in order to help the financial status of the District. We were assured a Measure O oversight would be formed to review District finances. Thus far the District has done little to initiate efficiencies or form an oversight committee.

I would be remiss, in the face of my criticism, if I did not offer my service to the District to sit on the Measure O Oversight Committee. I believe my work history and local Hercules service provides me the experience necessary to positively contribute to the committee. Please review my resume and speak to members of the Hercules City Council and staff (e.g. David Biggs) as to my qualifications.

Thank you for this opportunity and your consideration.

Sincerely,

Paul Freese
